

Aktibol

Aktibol capsule 1000 mcg, 50 capsules
Aktibol for injection 1000 mcg, 5 freeze-dried ampoules +
5 diluent ampoules (2 mL)

COMPOSITION: Each 1000 mcg capsule contains 1000 mcg cobamamide. Each 1000 mcg freeze-dried ampoule contains 1000 mcg cobamamide.

PHARMACOLOGICAL PROPERTIES: Stimulates protein synthesis. Facilitates digestion of proteins taken with food. Provides positive nitrogen balance. Increases host defence. Since it is non-hormonal, no side effects of hormonal anabolic agents are observed. Well tolerated without any known side effects.

INDICATIONS: Pernicious, macrocytic and hemolytic anemias. Anemias seen following chronic infectious diseases and surgical procedures. Anemias observed in cancer and chronic liver diseases.

CONTRAINDICATIONS: It has no known contraindication.

WARNINGS AND PRECAUTIONS: Should be used only when recommended by a physician. In malign tumors, since vitamin B12 stimulates cellular multiplication, tumoral exacerbation risk should be considered.

SIDE EFFECTS / ADVERSE EFFECTS: In patients with normal renal function, it may cause toxicity infrequently. Anaphylactic reactions (urticaria, shock, skin eruptions, diarrhea and itching) can be observed.

DRUG INTERACTIONS: Alcohol, aminoglycosides, aminosaliclates, anticonvulsives, cholestamine, colchicine may decrease absorption; vitamin C can destroy vitamin B12; therefore, high doses of vitamin C should be given one hour before or after administration. Chloramphenicol can antagonize hematopoetic response.

DOSAGE AND ADMINISTRATION: Premature infants: One capsule a day Infants: Two capsules a day Children over 1 year of age: Three capsules a day or one ampoule every other day. Adults: Six capsules a day (3 x 2) or 1 ampoule a day.

STORAGE CONDITIONS: AKTIBOL capsule and injection should be kept out of reach of children, at room temperature (<25°C) and in its package.

AVAILABLE FORMS:

AKTIBOL capsule 1000 mcg, 50-capsules blister packs.

AKTIBOL for injection 1000 mcg, 5 freeze-dried ampoules + 5 diluent ampoules (2 mL)
